

BLACKFEET COMMUNITY WATER PROJECT

BCWP P1-001 - Intake

Stoddard Construction, Contractor

December 26, 2002

Won't be long!

The above photos were taken on 12/23/02 and our inspector has indicated that the lower manifold components have been connected.

(To see more detail, right click on photo, copy and paste to another page where you can enlarge it)

Met with contractor on 12/24/02, he planned to place concrete on 12/26-27/02 if supplier was available and if not on the 30th. Backfilling of the cell (to the point where the pump connections are installed) will begin as soon as the concrete is placed and accepted.
